

INTEGRATED MANAGEMENT SYSTEMS
AUDIT, CERTIFICATION & TRAINING SERVICES

SGS

WHAT MAKES A CRITICAL DIFFERENCE IN THE WAY AN ORGANISATION IS RUN?

INTEGRATED MANAGEMENT SYSTEMS AUDIT, CERTIFICATION & TRAINING SERVICES FROM SGS

Aligned Management Systems enable more effective performance. All organisations are under pressure to demonstrate management systems that satisfy various stakeholder demands, whether they are focused on quality, the environment, IT security or health and safety.

Traditionally, organisations have focused on establishing management systems that demonstrate compliance with each management system requirement individually, often in isolation from each other and sometimes even in conflict. In a perfect world, you should have one system that runs your organisation and addresses all of your objectives at once, whatever they may be. It is a challenge to satisfy the needs of several management systems while running a business, but achieving this can be beneficial to your organisation's efficiency and effectiveness, as well as reducing the cost and disruption of external audits. Furthermore, it is a chance to separate yourself from the competition.

THE BENEFITS

A culture and track record of integrated management systems is proof that you are committed to enhancing performance while remaining cost-effective, increasing employee and customer satisfaction, and facilitating continuous improvement.

We have long-standing expertise and a proven track record in independent third party audit and certification against a wide range of standards. With teams of highly qualified auditors in place around the world, we build and deliver integrated audit programmes to assess various combinations of management systems and provide required certifications in the most efficient way.

Standards against which your existing management systems may be simultaneously certified through an integrated audit include:

- ISO 9001 Quality Management Systems;
- ISO 14001 Environmental Management Systems;
- OHSAS 18001 Occupational Health & Safety Management Systems;
- Customised Single Food Audit Solution;
- ISO 27001 Information Security Management Systems
- AS 9000 Aerospace Basic Quality System Standard;
- Specific sector or customer requirements; and
- Customer service standards.

INTEGRATED MANAGEMENT SYSTEMS RELATED TRAINING

We offer a variety of training courses for all levels of ability and awareness. Our Integrated Management Systems training course portfolio is designed to meet the requirements of any organisation wishing to integrate their management systems, and includes:

- Integrated Management Systems: Implementation Training Course; and
